

Plain Talking

Your opportunity to influence the future of your local healthcare provision

You may be aware that many things are changing rapidly within the NHS and we expect this change to continue. One of the major changes is for more responsibility to be given to doctors whose aim is to put your needs first and to keep healthcare local.

The Castle Practice, together with other local Practices, have set up a patient representative group called 'Plain Talking.' The members of this group will help us to better understand the needs, opinions and priorities of patients living in the local area and to influence the shape local healthcare in the future.

Could this be you?

If you are interested in being involved and/or happy for us to contact you periodically by email, please complete and return the slip below to Reception
